... and what we aim to do

- develop GDT to...
 - ... incorporate presentation formats developed in WP 1-5
 - ... support other languages
 - ... structure and facilitate the process of developing recommendations in healthcare

- create a database of evidence profiles (EPs) ...
 - ... with dynamic output options to ensure flexibility in providing different EP presentations
- minimise unnecessary duplication of efforts
- facilitate accessibility to EPs by guideline developers and HTA agencies in Europe

This project has received funding from the European Union's Seventh Framework Programme for research, technological development and demonstration under grant agreement no 258583.
