DECIDE Round-Up

DECIDE GRADE

Project Aim

To improve the dissemination of evidence based recommendations by building on the work of the GRADE Working Group to develop and evaluate methods that address the targeted dissemination of guidelines.

News

The UK ethics form for WP1/WP3 shared decision-making user-testing work with health professionals and patients has been completed. In the UK the focus will be adjuvant endocrine therapy for breast cancer and a meeting is scheduled with a consultant in Dundee in earlier February.

Comments from the GRADE Working Group on the first article in the PLoS Medicine series on the EtD have been responded to.

A WP3 meeting was held in Glasgow with a particular emphasis on the focus group analysis – and of course ongoing WP3 activities.

Interest in DECIDE remains high and the project often receives queries via its web form (available on project website). If you are interested in participating in a particular DECIDE Work Package (WP) then please let us know and your query is passed on to the relevant WP Leader(s). If you have any questions about the work of the project we are keen to hear from you.
