

Project Aim

To improve the dissemination of evidence based recommendations by building on the work of the GRADE Working Group to develop and evaluate methods that address the targeted dissemination of guidelines.

News

Work Package 4 (“DECIDE strategies for diagnostic tests”) delivered a presentation on DECIDE in an Evidence Based Medicine (EBM) course for insurance physicians.

DECIDE continues to be well publicised at various events throughout the year. A workshop entitled “GRADE Interactive Evidence to Decision (iEtD) Frameworks: a tool to help decision makers to systematically use evidence when making decisions or recommendations” has been accepted for the Cochrane Colloquium in Vienna. The Colloquium runs from 3-7 October 2015.

Ethical approval has been granted for shared-decision making work between Work Package 1 (Health professionals) and Work Package 3 (Patient and public)

News

An iSoF (interactive Summary of Findings) trial with the Scottish SHARE register <http://www.registerforshare.org> is planned, and we have received confirmation that this trial does not need ethical or formal approval. Discussions have taken place on how to use the SHARE facility once the iSoF alternatives are ready.

DECIDE partners will be taking part in a two-day meeting on 9th and 10th July organised by the EU Joint Action on European Guide on Quality Assurance in Comprehensive Cancer Care (CanCon), led by the National Institute of Public health of Slovenia and funded by the European Commission that feeds into work to improve cancer care in Europe. Please visit <http://www.cancercontrol.eu/> for more information about Can Con.

Healthcare Improvement Scotland’s user testing on the updated Glaucoma Patient Guideline is complete and the research is being analysed. An abstract has been submitted to G-I-N 2015 to present this. Find out more about G-I-N 2015 at: <http://www.g-i-n.net/conference/12th-conference/12th-conference-overview>
