

Project Aim

To improve the dissemination of evidence based recommendations by building on the work of the GRADE Working Group to develop and evaluate methods that address the targeted dissemination of guidelines.

News

An ‘Explorathon’ event showcasing European Commission funded research projects took place in Aberdeen on Friday 25th September 2015.

Shaun Treweek (University of Aberdeen), Dr Andrea Darzi (American University of Beirut) and Bill Slater (University of Dundee) were on hand to talk generally about DECIDE work and randomised trials. They also conducted a real trial as part of the testing of the interactive Summary of Findings (iSoF) tables.

As well as the opportunity to present DECIDE to the wider public, we received some really good feedback which will be assessed and fed back into the process as we continue to improve the iSoF.

More information about DECIDE at Explorathon can be found on the Explorathon blog: <http://www.explorathon.co.uk/home-2/explorathon-blog> and also on the University of Aberdeen’s Health Services Research Unit (HSRU) news by following this link: <http://www.abdn.ac.uk/hsru/news/8290/>

News

You will see from the HSRU link that there is another online trial linked to DECIDE which can be accessed here: <https://w3.abdn.ac.uk/hsru/decide/>

This study should take no more than 10 minutes and it would be great if you are able to participate.

As the DECIDE project enters its final three months we are looking at ways to better present information and outputs arising from DECIDE on our project website and elsewhere. If you are visiting the website (www.decide-collaboration.eu) and can’t find what you are looking for please let us know by email to the address below. Thanks for your patience while the website is being updated.

As part of the ‘dissemination package’ that we are pulling together we are currently exploring the possibility of producing a short video.

Next month (October) is ‘conference season’ with the Cochrane Colloquium and G-I-N 2015 taking place. DECIDE will be well represented again and we’ll post information about activities at these conferences on our website.

Please don’t hesitate to contact us if you ever have any questions about the project.
