

# DECIDE Round-Up September 2014

## Project Aim

To improve the dissemination of evidence based recommendations by building on the work of the GRADE Working Group to develop and evaluate methods that address the targeted dissemination of guidelines.

## News

**WP5 report that the interactive Evidence to Decisions (iEtD) tool is ready for launch mid October** ([ietd@epistemonikos.org](mailto:ietd@epistemonikos.org)). Further work and additions to this tool will be ongoing but the tool will be stable to use. Changes to the tool were made in response to feedback from workshops at our International Conference in Edinburgh in June 2014; so a big “thank you” to everyone who has contributed to the development of the iEtD tool.

Meetings have been held with an advisory group regarding the interactive Summary of Findings (iSoF) to obtain their comments for further development – work will start on the next version of the iSoF in the near future.

WP5 have also carried out a pilot user test of the GETIT glossary to inform further using testing.

The work of WP4 was the subject of a poster displayed at the first joint Research Day (30 September) of the Department of Clinical Epidemiology of the Academic Medical Center / University of Amsterdam and VU University Medical Center.

## News

WP2 held a workshop about the application of the EtD framework to decisions of coverage and disinvestment at the Conference of the Italian Society of HTA (SIHTA) in Rome on 27 September 2014.

-----  
Healthcare Improvement Scotland continue to work on the writing up of the user testing, and a meeting has been arranged for January 2015 to finalise the draft. Work is about to start on producing a patient version of the Glaucoma guideline and the plan is to test the new methodology on this guideline. Meetings with patient groups begin in mid October 2014 to start the process.

-----  
WP1 and WP3 are in discussions about the shared decision making work that aims to user-test guideline materials that can directly support conversations between health professionals and patients.

-----  
WP2 held a workshop about the application of the EtD framework to decisions of coverage and disinvestment at the Conference of the Italian Society of HTA (SIHTA) in Rome on 27 September 2014.

-----  
DECIDE aims to regularly promote and disseminate its work to a wide audience. If you would like more information please let us know.

## Project Timeline - 2014

Jan-14	Feb-14	Mar-14	Apr-14	May-14	Jun-14	Jul-14	Aug-14	Sep-14	Oct-14	Nov-14	Dec-14
Consortium Meeting, Barcelona	Milestone 3				International Conference (Deliverable 7.2)		Database of Evidence Profiles (Deliverable 6.2)				
Month 37	Month 38	Month 39	Month 40	Month 41	Month 42	Month 43	Month 44	Month 45	Month 46	Month 47	Month 48
